**READER RABBIT AND THE FABULOUS WORD FACTORY**

Reading Software Program
Ages 5–7

The Learning Company introduces children to a fantastic furry friend in **Reader Rabbit and The Fabulous Word Factory.** By helping Reader Rabbit match pictures and words, label boxes, and load words onto a word train, children learn to recognize and work with over 200 three-letter words. Fascinating animated conveyor belts and word trains encourage youngsters to develop basic skills essential to reading comprehension and vocabulary building.

Children can play each of the four imaginative games at their own pace and earn special colorful rewards each time they win. **Reader Rabbit and The Fabulous Word Factory** also comes with a fully illustrated instruction booklet complete with ideas for supplemental learning activities.
